

# LITERACY

Creating Connections with Language

---

# OCTOBER 19-21, 2023

## FRANCIS MARION HOTEL/CHARLESTON, SC

*presented by:*

The American Society for Deaf Children along with the Convention of American Instructors of the Deaf, South Carolina School for the Deaf and Blind, and the South Carolina Department of Education are proud to announce our collaboration in presenting our first annual literacy conference in 2023 - **Literacy: Creating Connections with Language.**

Language allows us to learn, build relationships, and succeed. To create connections. Together, we are working to create an informative, innovative, and interactive experience for both presenters and attendees that supports progressive literacy and language development for Deaf/HH children/students.

We look forward to seeing you in October.
