### About ASDC's Special Education Today Program:

"Special Education Today: A Leadership, Education, and Advocacy Program for the Latino Community" is a dedicated initiative aimed at empowering Spanish-speaking families with children who have developmental disabilities. Our program focuses on providing valuable resources and support through monthly virtual workshops led by Spanish-speaking experts. With a particular emphasis on the Deaf and hard-of-hearing community, the American Society for Deaf Children (ASDC) is proud to offer this program as we foster leadership and advocacy skills within Latinx families, enhancing their children's educational experiences.

Join us as we build a supportive community and create lasting positive impacts in the lives of our children.

**This FREE program begins July 2024! Sign up today!**
